

AIRSPACE WORLD 2025

Stand H21050

Programme

Tuesday 13 May

11:30 - 12:00

skeyes' CIS, a U-space enabler

Demonstration of the Common Information Service platform and how it delivers the data for an integrated drone ecosystem.

Presenter: *Simon Devoldere (skeyes)*

13:45 - 14:30

Enhancing Airspace Safety & Security: Implementing EASA-Compliant Drone Detection for Airports

Learn how SkeyDrone's Drone Radar identifies threats with skeyes' EASA-based ConOps and Airport Intelligence's approach.

Presenters: *Tom Snyers (SkeyDrone), David Van Acker (skeyes) and Yves Brouwers (Airport Intelligence)*

14:30 - 15:00

Insights from Drone Detection Around Belgian Airports

Discover key findings from SkeyDrone's drone detection at Belgian airports and learn how to improve drone management.

Presenter: *Didier Decaestecker (SkeyDrone)*

15:00 - 15:30

Cleared for Digital Take-Off: Transforming our ATC Tower Together

Co-creating the future of air traffic control with our future users, we bring the Digital Tower to life. At skeyes' Digital Tower test center, we are testing, configuring and validating future-proof (remote) tower technology – powered by advanced A-SMGCS features – for the airports of Liege and Brussels South Charleroi.

Presenters: *Olivier Nicolay and Maxime Antoine-Moussiaux (skeyes)*

15:30 - 16:00

BVLOS Drone flight with active deconfliction in controlled airspace

Witness a drone flight streamed from Belgium.

Presenter: *Jean-Pierre De Muyt (SkeyDrone)*

Wednesday 14 May

10:00 - 10:30

skeyes' CIS, a U-space enabler

Demonstration of the Common Information Service platform and how it delivers the data for an integrated drone ecosystem.

Presenter: *Simon Devoldere (skeyes)*

11:00 - 11:30

Cleared for Digital Take-Off: Transforming our ATC Tower Together
